+98 9013121606

Tehran, Tehran Province

As a blockchain enthusiast, I am focused on building Solidity smart contracts and decentralized applications (dApps).

My technical skills include:

Solidity, JavaScript

Hardhat, Ethers.js, React.js

Smart contracts, DeFi, token standards (ERC-20, ERC-721, ERC-1155)

I am actively working on projects like token contracts and decentralized applications to deepen my skills and build a portfolio. My goal is to secure a blockchain development role where I can contribute to creating secure, efficient, and scalable solutions.

Work Experience

Customer Support Specialist (Cryptocurrency Exchange)

Mar 2024 - Present

Ramzinex | رمزينكس | Tehran, Tehran Province, Iran

Provided customer support for a cryptocurrency exchange platform, resolving technical issues and inquiries efficiently. Assisted users in trading, deposits, withdrawals, and account verification processes.

Maintained a high level of customer satisfaction by ensuring timely and accurate responses.

Programmer

Present

Content Creator (Cryptocurrency & Blockchain)

Jan 2023 - Sep 2023

soodaaneh | Semnan Province, Iran

Created engaging and informative written content on cryptocurrency and blockchain topics.

Produced articles and guides for crypto enthusiasts and investors.

Projects

NFT Auction Smart Contract

Present

This is one of my favorite projects that I've worked on—a smart contract for NFT auctions! The contract lets users securely list and bid on NFTs, with automated winner selection and easy fund handling.

Real Estate NFT DApp

Present

This decentralized application allows you to buy and sell properties represented as NFTs, ensuring secure and straightforward dealings.

Core Skills

Ethereum, Solidity, Smart Contract Development, Hardhat, Non-Fungible Tokens (NFTs), Hardhat.js, Smart Contracts, Ethers.js, NFT Standards and Marketplaces, React.js, JavaScript, Cryptocurrency Exchanges, Blockchain, Cryptocurrency Knowledge, Problem Solving, Communication, Research Skills

Education

Institute of Electronic Higher Education of Iranians

Sep 2023 - Present

Bachelor's degree Computer Engineering
